• Tahtawi Master scholarship runs this year from 4 February to 31 March

2024

- The French Embassy in Egypt announces the opening of the 12th call for applications for the Tahtawi scholarship for the academic year 2024-2025 from 4 February to March 31, 2024 (at 14:00 GMT +2)
- The scholarship entitles you to 860€ per month for 10 months, A waiver of tuition fees in public institutions up to €5,000 excluding specific fees, Health and social security cover and a place in a university hall of residence.
- Find all the information and eligibility criteria on the French Institute of Egypt website.
- <https://www.ifegypte.com/en/studies-programs/grants-and-calls-for-projects/>

Doctoral scholarships – Open until February 29, 2024!

- Every year, the French Embassy in Egypt supports the mobility of Egyptian doctoral students and young researchers wishing to complete their thesis in France.
- The French Embassy in Egypt offers a grants program for short scientific stays in France to the benefit of young Egyptian researchers (doctoral grants) working on their thesis in public and private Egyptian universities.
- Each grant will be awarded for a maximum duration of 12 months during the three years of the thesis, for 6 months per year at the most.
- It may possibly allow the recipients to complete a jointly supervised thesis, that is, enrollment as doctoral students in both Egypt and France in order to obtain a dual Ph.D degree.
- Each grant covers transportation costs, social coverage and living expenses in France.
- Find all the information and eligibility criteria on the French Institute of Egypt website and submit your application before February 29, 2024 !
- <https://www.ifegypte.com/en/studies-programs/grants-and-calls-for-projects/>

Hubert CURIEN IMHOTEP Partnership – Open until 18 April 2024 !

- The French Embassy in Egypt and the Egyptian Academy of Scientific Research and Technology (ASRT) co-finance the Franco-Egyptian IMHOTEP
- This program allows for the financing of Franco-Egyptian teams' mobility for up to 20,000 euros throughout the two years of the project
- All scientific fields are eligible for this program. However, priority will be given to projects that deal with the following subjects: health (cancer, hepatitis, diabetes), space sciences, environment (new and renewable energies, water), agriculture, human and social sciences, technology. information and communication (artificial intelligence, data sciences).
- Applications must be simultaneously and separately filed by the French researcher at the Campus France's facility, and by the Egyptian researcher at the ASRT's facility.
- French Team Application and Egyptian Team Application must be sent by maximum April 18, 2024 !

Thank you
